Subject: Bioassay data: reference envelope response
Date: 04/15/2009 01:45 PM

Carrie et al-

Attached is a shapefile with bioassay tests symbolized by response levels for use in the AOPC analysis. Jay created this data layer based on the reference envelope approach and I have symbolized by "tox level" from low-moderate-high. This data layer can be added into the ArcView project or the spreadsheet can be used in Excel.

Thanks,

Ben

shapefile attached: PH_ToxRef_Scale_20090413

This Email message contained an attachment named
ph_benthicrisk_20090415.zip
which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
